

Product Guide 2022

Herbicide Products A to Z

Product	Form. Type	Active Constituents
2,4-D AMINE	SL	2,4-D amine 625 g/L
2,4-D LV ESTER	EC	2,4-D low volatile ester 680 g/L
AMETREX®	WG	ametryn 800 g/kg
ARDEO®	SL	acifluorfen 224 g/L
BOBCAT®	SL	hexazinone 250 g/L
BOBCAT® COMBI	WG	hexazinone 132 g/kg + diuron 468 g/kg
BOBCAT® i-MAXX SG *	SG	hexazinone 750 g/kg + imazapic 150 g/kg
BONANZA® ELITE	SC	diflufenican 500 g/L
BROADSTAR®	SL	bentazone 480 g/L
BRONCO® 400	EC	bromoxynil 400 g/L
BRONCO® MA-X	EC	bromoxynil 280 g/L + MCPA 280 g/L
CAVALIER®	EC	oxyfluorfen 240 g/L
CAVALIER® 500	SC	oxyfluorfen 500 g/L
CLINCHER® GOLD	EC	s-metolachlor 960 g/L
COLT®	EC	diflufenican 25 g/L + bromoxynil 250 g/L
COUNTDOWN®	EC	prosulfocarb 800 g/L
CUTLASS® 500	SL	dicamba 500 g/L
CUTLASS® M	SL	dicamba 80 g/L + MCPA 340 g/L
DIURON® WG	WG	diuron 900 g/kg
ELEVATE®	EC	carfentrazone 400 g/L
ENCODE®	WG	butoxydim 500 g/kg
ENFORCER® 75-D	SL	picloram 75 g/L + 2,4-D 300 g/L
FARMOZINE® WG	WG	atrazine 900 g/kg
FIGHTBACK®	EC	picloram 100 g/L + triclopyr 300 g/L
FIREPOWER® 900	EC	haloxyfop 900 g/L
FLAGSHIP® 400	EC	fluroxypyr 400 g/L
GAUNTLET®	SC	msma 720 g/L
IMPOSE®	SL	imazapic 240 g/L
INEGO®	EC	pinoxaden 100 g/L + cloquintocet-mexyl 25 g/L
LEGACY® MA	EC	diflufenican 25 g/L + MCPA 250 g/L
LEOPARD® 200	EC	quizalofop-p-ethyl 200 g/L
LINUREX®	SC	linuron 450 g/L
LVE MCPA 570	EC	MCPA low volatile ester 570 g/L

Product	Form. Type	Active Constituents
MANDATE®	EC	clodinafop-propargyl 240 g/L
MATRIX®	SC	ethofumesate 500 g/L
MCPA 750	SL	MCPA amine 750 g/L
MENTOR®	WG	metribuzin 750 g/kg
NOVALI®	WG	pyroxasulfone 850 g/kg
PALMERO®	WG	isoxaflutole 750 g/kg
PALMERO® TX *	WG	isoxaflutole 75 g/kg + terbuthylazine 750 g/kg
PLATINUM® XTRA 360	EC	clethodim 360 g/L
PICOFLEX®	SL	picloram 240 g/L
PRIORITY®	SC	florasulam 200 g/L
QUADRANT®	EC	picolinafen 10 g/L + diflufenican 20 g/L + bromoxynil 240 g/L + MCPA 250 g/L
RAPTOR®	WG	imazamox 700 g/kg
RATTLER®	SL	asulam 400 g/L
ROTARY MAX®	SL	imazapyr 240 g/L
SAFARI® 750	EC	triclopyr 750 g/L
SHOGUN®	EC	propaquizafop 100 g/L
SIMANEX® WG	WG	simazine 900 g/kg
SPINNAKER® 700	WG	imazethapyr 700 g/kg
SPRAYTOP® 250	SL	paraquat 250 g/L
SPRAYTOP® 330	SL	paraquat 330 g/L
TENET®	SC	metazachlor 500 g/L
TRIATHLON®	EC	diflufenican 25 g/L + bromoxynil 150 g/L + MCPA 250 g/L
TRILOGY®	EC	trifluralin 480 g/L
ULTRO®	WG	carbetamide 900 g/kg
URAGAN®	WG	bromacil 800 g/kg
VICTORY® 600	SL	clopyralid 600 g/L
VICTORY® 750 SG	SG	clopyralid 750 g/kg
WIPE-OUT® 450	SL	glyphosate 450 g/L
WIPE-OUT® PRO	SL	glyphosate 540 g/L
ZULU® XT	SL	2,4 D DMA + IPA 720 g/L

Herbicide Active Ingredients A to Z

Active Constituents	Form. Type	Product
2,4-D amine 625 g/L	SL	2,4-D AMINE
2,4 D DMA + IPA 720 g/L	SL	ZULU® XT
2,4-D low volatile ester 680 g/L	EC	2,4-D LV ESTER
acifluorfen 224 g/L	SL	ARDEO®
ametryn 800 g/kg	WG	AMETREX®
asulam 400 g/L	SL	RATTLER®
atrazine 900 g/kg	WG	FARMOZINE® WG
bentazone 480 g/L	SL	BROADSTAR®
bromacil 800 g/kg	WG	URAGAN®
bromoxynil 280 g/L + MCPA 280 g/L	EC	BRONCO® MA-X
bromoxynil 400 g/L	EC	BRONCO® 400
butoxydim 500 g/kg	WG	ENCODE®
carbetamide 900 g/kg	WG	ULTRO®
carfentrazone 400 g/L	EC	ELEVATE®
clethodim 360 g/L	EC	PLATINUM® XTRA 360
clodinafop-propargyl 240 g/L	EC	MANDATE®
clorpyralid 600 g/L	SL	VICTORY® 600
clorpyralid 750 g/kg	SG	VICTORY® 750 SG
dicamba 500 g/L	SL	CUTLASS® 500
dicamba 80 g/L + MCPA 340 g/L	SL	CUTLASS® M
diflufenican 25 g/L + bromoxynil 150 g/L + MCPA 250 g/L	EC	TRIATHLON®
diflufenican 25 g/L + bromoxynil 250 g/L	EC	COLT®
diflufenican 25 g/L + MCPA 250 g/L	EC	LEGACY® MA
diflufenican 500 g/L	SC	BONANZA® ELITE
diuron 900 g/kg	WG	DIURON® WG
ethofumesate 500 g/L	SC	MATRIX®
florasulam 200 g/L	SC	PRIORITY®
fluroxypyr 400 g/L	EC	FLAGSHIP® 400
glyphosate 450 g/L	SL	WIPE-OUT® 450
glyphosate 540 g/L	SL	WIPE-OUT® PRO
haloxyfop 900 g/L	EC	FIREPOWER® 900
hexazinone 132 g/kg + diuron 468 g/kg	WG	BOBCAT® COMBI

Active Constituents	Form. Type	Product
hexazinone 250 g/L	SL	BOBCAT®
hexazinone 750 g/kg + imazapic 150 g/kg	SG	BOBCAT® i-MAXX SG *
imazapic 240 g/L	SL	IMPOSE®

AgTech Innovation

ReefAware

ReefAware is the ideal decision support tool for sugarcane growers, agronomists and other ag professionals using ADAMA crop protection products. It allows cane growers to map paddocks and get instant location-based information, including a simple go or no go indication, on the suitability and timing of the herbicide application.

trapview

Trapview utilises revolutionary technology in a fully integrated system to provide an innovative, simplified solution for growers, agronomists and researchers needing to monitor insect populations. Benefits for agronomists include near real-time insight into the pest situation in an area, the ability to provide the right solution at the right time and a more simplified means of communicating this information with their grower clients.

Pessi disease models provide agronomists and growers with a decision support tool to better understand the disease risk in their local area. Having a better understanding of disease infection and development will allow agronomists and growers to be able to make more timely and precise fungicide applications, leading to more effective results.

BreviSmart®

BreviSmart from ADAMA, a new web-based decision support tool for apple advisors identifies the optimum time to apply the fruit thinner Brevis®. BreviSmart supports the advisor's local knowledge by assessing key weather variables and king fruitlet diameter to determine the optimum window to apply Brevis.

ADAMA Young ACHIEVER Awards

ADAMA is proud to recognise and support young achievers in agriculture through our ADAMA Young Achiever Awards program. The ADAMA Young Agronomist of the Year Award recognises the nation's outstanding agronomist under the age of thirty. Through the Australian Cotton Industry Awards, ADAMA also sponsors the 'ADAMA Chris Lehmann Trust Young Cotton Achiever Award' which is named in memory of Narrabri agronomist and farmer, Chris Lehmann, who was a founding father of cotton agronomy in Australia. The award recognises a young person who has contributed significantly and shown long term commitment to Australia's cotton industry.

Innovative New Products

Brevis®

- Brevis® provides apple growers with an innovative and more flexible option for fruit thinning
- Unique mode of action inhibits photosynthesis to induce fruit thinning
- Apply in daily temperatures of 10°C to 25°C
- Apply between 8 and 16 mm fruitlet diameter
- Apply up to two applications at a rate of 1.1 to 2.2 kg/ha. Up to a maximum of 4.4 kg/ha per season
- No impact on beneficial insects or IPM programs.

Topnotch®

- Topnotch®, has a unique formulation that provides broad-spectrum protection against many cereal leaf diseases to maximise the potential of high yielding cereal crops
- If correctly timed, Topnotch will provide robust and broad-spectrum control against several stages of the fungi life cycle
- Dual mode of action for resistance management
- Protects by both protectant and systemic activity
- Now registered in oats for red leather leaf, physiological leaf spot in barley & crown rust & eyespot in wheat

Maxentis® EC

- GRP 3/11 EC co-formulation of 133g/L azoxystrobin + 100g/L prothioconazole
- Registered for foliar disease control in barley, oats, wheat and canola
- Safe in mixtures with herbicides, UAN & trace elements
- Key strengths – sclerotinia & blackleg in canola, pyrenophora & rust diseases in cereals

Proviso® EC

- GRP 3 EC formulation of 250g/L prothioconazole
- Low use rates with flexibility to mix with other fungicide groups – including Orius, Soprano & Veritas Opti
- Registered for foliar disease control in barley, oats, wheat and canola
- Labelled for control of blackleg in canola and suppression of physiological leaf spotting in barley
- Crop safety in mixtures with herbicides, UAN and trace elements

Veritas® Opti SC

- Dual mode of action group 3/11 suspension concentrate
- High loading of azoxystrobin 222g/L + tebuconazole 370g/L
- Reduced per/Ha application volume, ease of mixing, less packaging waste
- Multi-crop registration – pulses, oats, cereals, canola – wide window of application with short harvest withholding
- Proven in tank mix with grass selective herbicides to not reduce weed control

Mirador® 625 SC

- High loading of azoxystrobin 625g/L
- Reduced per/Ha application volume, ease of mixing, less packaging waste
- Multi-crop registration – pulses, oats, cereals, canola, horticulture
- Range of labelled tank mix partners

Custodia® Forte SC

- Dual mode of action group 3/11 suspension concentrate
- High loading of azoxystrobin 222g/L + tebuconazole 370g/L
- Multi-crop horticulture registrations across grapes, macadamia & almonds
- Labelled for control of the “big three” in grapes and the “big four” in almonds
- Proven to reduce nut abscission in macadamia

Plemax®

- Plemax® is a unique insecticide for the control of chewing pests in leafy, fruiting and brassica vegetables
- Dual mode of action providing robust knockdown and residual control
- A new mode of action for vegetables that controls resistant populations of diamondback moth and *Helicoverpa* spp.

Nimitz®

- Nimitz® is a novel nematicide developed by ADAMA containing a unique new active ingredient, fluensulfone, with true nematocidal activity
- Nimitz® provides an unmatched combination of safety and efficacy, thereby simplifying several aspects of nematode management
- Nimitz® is an important new management option for the control for root-knot nematode pre-planting of tomatoes, capsicums, chilli, eggplant, okra, cucurbit vegetables, carrots, potatoes, sweet potatoes and also in sugarcane for the control of root-knot nematodes and root lesion nematodes

Skope®

- Skope® insecticide provides wide-spectrum performance against key cotton pests, including green mirid, silverleaf whitefly, *Heliothis* spp, cotton aphid and green vegetable bug
- Two modes of action for resistance management
- IPM fit and no mite flaring
- The best product for managing multi-pest scenarios in cotton
- Now registered for the control or suppression of key insect pests in winter and summer pulse crops.

Ultro®

- Introducing a new mode of action (Group 23/E) for the pre-emergent control of grasses in winter pulse crops and winter fallow
- Controls annual ryegrass, barley grass and brome grass
- Registered and applied as a pre-emergent application in broad beans, chickpeas, faba beans, field peas, lentils, lupins, vetch and winter fallow.

Priority®

- Priority® is registered for the control of 54 broadleaf weeds (depending on the tank-mix partner utilised)
- Priority® can be applied as a post-emergent treatment to winter cereals between the three and flag leaf (GS13-37) stages, as well as in fallow and established ryegrass pasture
- Priority® has a short half-life in soil and does not bind strongly to plant material, making it a more flexible option for crop rotations
- Excellent compatibility with a range of herbicides, insecticides and fungicides

Tenet®

- Tenet is now registered for pre-emergent or post-emergent annual weed control in canola
- Introducing a new mode of action (Group 15/K) to canola
- Tank mix with Platinum® Xtra 360 herbicide for improved post-emergent control of annual grass weeds

Encode®

- Concentrated butoxydim 500 g/kg formulation
- Tank-mix with Platinum® Xtra 360 in winter pulse crops to improve control of annual ryegrass populations
- Flexible options for crop oils

About ADAMA Australia

ADAMA is a leading global crop protection company, providing solutions to combat weeds, insect pests and disease, so farmers can do what they do best: feed and clothe the world.
